

**Amendments to the Specification:**

Please insert the following new sentence after "preferred." at page 6, line 8 of the specification:

-- For conducting liquid/solid or gas/liquid/solid reactions in structured catalysts with channels of these cross-sectional shapes, conditions of liquid linear velocity of between approximately 0.01 and 100 cm/s using feeds having a gas/liquid volume ratio of between approximately 0 and 1000 can be used.--
